

RELIABILITY IN EVERY ROTATION

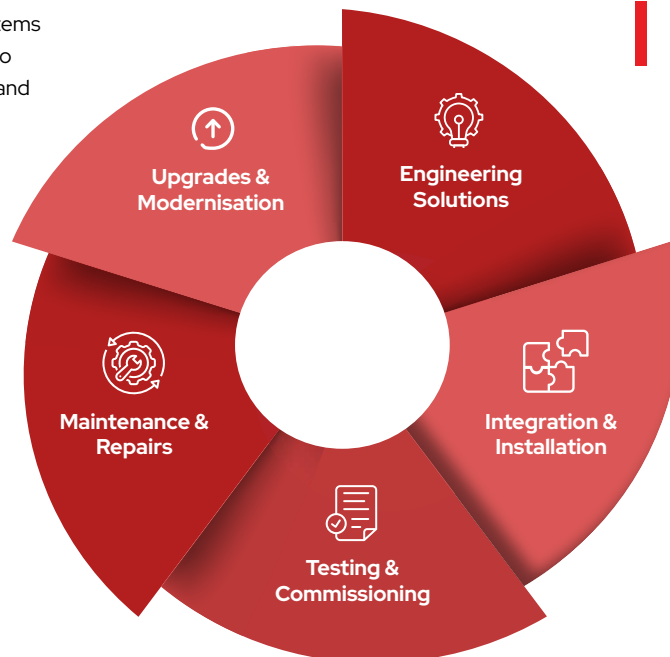

Ensure maximum efficiency and minimal downtime with our industry-leading rotating equipment.

Smooth operations start with rotating equipment you can depend on. From **API-compliant products** to **customised services**, we provide **comprehensive solutions** to help you reduce downtime, and ensure efficiency even in the most demanding environments.

Leverage the **Exion Asia** advantage

Enhancing existing pump systems with advanced technologies to improve efficiency, reliability and industry compliance.

Proactive maintenance solutions, including preventive and predictive programmes, vibration analysis, performance monitoring, and in-depth failure root cause analysis.

Customised solutions for optimal performance, including new pump selection and sizing, performance analysis, system optimisation, and material compatibility assessment.

Seamless system integration with expert installation supervision, precision alignment checks, and commissioning support to ensure smooth operations.

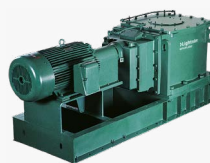

Comprehensive start-up testing and validation to verify system functionality, efficiency, and compliance with industry standards.

ROTATING PRODUCTS

SPXFLOW

> Lightnin®

Top entry mixers
Equalisation, aeration,
flocculation, blending and heat
transfer in processing industries

SPXFLOW

> Bran+Luebbe®

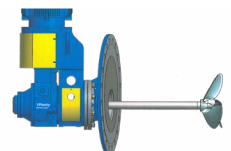

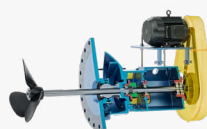

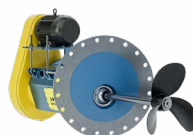

Double diaphragm precision
metering pumps; metering,
weighing and blending process
systems

SPXFLOW

> Plenty®

Side entry mixers
Crude oil BS&W control, homogeneity
maintenance, blending and heat transfer

SPXFLOW

> APV®

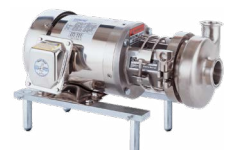

Various equipment for food, dairy and
pharmaceutical industries

SPXFLOW

> Waukesha Cherry-Burrell®

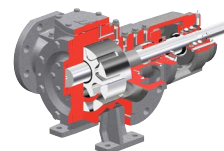

Various equipment for food, dairy and
pharmaceutical industries

SPXFLOW

Johnson Pump®

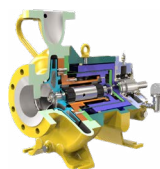

Industrial centrifugal, self-priming and internal gear pumps

API high-speed vertical in-line high-pressure centrifugal pumps; centrifugal compressors; Sunflo horizontal high-pressure pumps

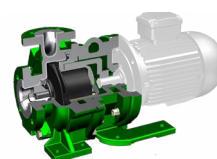

Sealless magnetic-driven pumps: API 685 / ISO / ANSI standard design

ANSIMAG

Sealless pumps
Sealless magnetic-driven ETFE-lined pumps: ASME/ANSI B73.3 and ISO2858

MD-Kinney Elmo Rietschle

Rotary lobe, screw and centrifugal blowers; liquid ring, rotary vane and screw vacuum pumps

FACILITIES & SERVICES

Authorised service centre for:

SPXFLOW

Leistritz

SERVICE OVERHAUL OF CENTRIFUGAL PUMPS

- Single & multi-stage pumps
- API 610 pump types - full range

SERVICE OVERHAUL OF SEALLESS PUMPS

- Canned motor pump
- Magnetic-driven pump

SERVICE OVERHAUL OF MIXERS & GEARBOXES

- Top entry mixer / agitator
- Side entry mixer / agitator
- Gearboxes

SERVICE OVERHAUL OF POSITIVE DISPLACEMENT PUMPS

- Screw pump
- Metering / dosing pump
- Gear pump
- Vane pump

SERVICE OVERHAUL OF BLOWERS

- Centrifugal type
- Lobe type
- Screw type

ENGINEERING SOLUTIONS

- Reverse engineering / 3D scanning
- Failure, vibration & on-site performance analysis
- Design and build special tools and jigs

ROTATING EQUIPMENT SERVICING

Partner with Asia's preferred provider for rotating equipment servicing, overhauling and purchases. With Exion Asia, your business can achieve:

Cost efficiency

Minimal downtime

Reliable after-sales support

Highlights of our **Workshop Facilities**

- 20,000 sq ft of workshop space
- 40-ton and 20-ton overhead cranes
- Performance test benches
- VFD (up to 110kW)
- VFD with 690V
- Vertical & convention lathe machines
- Boring & radial drilling machines
- Blasting & dynamic balancing machines
- Centrifugal & positive displacement pump testing systems
- Painting booth

INNOVATE FOR SUCCESS WITH SWTS ASIA

SWTS Asia's group of companies specialises in Maintenance, Repairs & Overhauls (MRO) Services, Engineering Applications & Distribution of Engineered Products, Electrical Services and Consultancy to various industries; from maritime to energy solutions.

Supported by the latest technology, sophisticated tools and a dedicated team, we are committed to building long-term relationships with customers, manufacturers and business partners.

Together, we finish what we start – and go the extra mile.

We keep your plants and vessels running

Our regional footprint

We serve a wide range of industries – and ensure that we are always close to our clients, no matter where they are.
